

# CrewFlix

Bring the best entertainment on board

RigNet

CrewConnect™ Suite

## Crew video on demand solution

CrewFlix™ is the newest addition to the RigNet CrewConnect portfolio of crew morale services. It enables you to enjoy the best of primetime anytime, offering entertainment from the world's top studios. CrewFlix delivers the most popular movies and TV shows straight to your PC, Mac, iOS or Android devices.

### CrewFlix Capabilities

CrewFlix is a video-on-demand service, offering an entertainment library that is updated monthly, including top grossing films and popular TV series licensed from Walt Disney, Paramount Pictures, Warner Bros., Universal, Sony, and many more. Optional daily news and sports broadcast programming are also available. CrewFlix is delivered on TV end points and bring-your-own-device (BYOD) viewers, or both, depending on site requirements.

### Crew Welfare

Crew morale is a crucial part of retaining the new generation of crew personnel. Modernize your crew welfare program while maintaining the economic viability of your operation. Whether it is a remote, land-based drilling operations or offshore drilling platforms, CrewFlix meets the growing entertainment demands of crews around the globe.

### Licensed Entertainment

The risk to managers, operators, and vessel owners increases every time employees download or upload their own illegal content, as this could introduce viruses and malware into their network. Taking measures to monitor crew usage is often impractical. To prevent this, RigNet's CrewFlix service provides licensed content, eliminating license-law violations that occur when entertainment content is obtained illegally. CrewFlix content has the applicable entertainment license for display in communal areas onboard, the individual quarters of crew members, or other areas where crews use their devices.

Proud to offer films and TV series from top studios

A secure, reliable, commercially licensed service built for next generation offshore professionals
