

CrewHotspot

Stay connected when you're away from home

High-performance crew welfare portfolio

CrewHotspot™ is a reliable, on-demand internet connection, enabling your crew to connect to the world whenever and wherever they want. As a fully separate network, CrewHotspot is secure, accessible and always-on, managed 24/7 by RigNet technical support engineers.

Connect With Flexibility

CrewHotspot is a self-service, easy-access network connection dedicated to contractors and crew. Competitive payment options are offered through several channels from PayPal, to credit cards, to vouchers. The Hotspot is a reliable, on-demand internet connection, enabling your crew to connect to the world when and where they want, improving productivity and workplace morale.

Connect With Independence

The Hotspot network is completely separate from your corporate network, providing crew with a private and secure connection while they're off-shift with zero interference in a corporate network. Network separation enables greater control, stronger security, and reduced risk to corporate data.

Connect With Efficiency

CrewHotspot is a fully managed service provided directly to your crew by RigNet. The Hotspot is pay-per-use, enabling you to share the cost of providing bandwidth with your crew. Fully supported by RigNet, the Hotspot is your risk-free option for a personal crew data network.

Flexible, Private, Secure Connectivity

- Improved User Experience
- Intuitive interface
 - Private, secure connectivity

- Network Separation
- Personal and corporate data usage separated
 - Distinct, fully-managed network

- User Management
- Pay-per-use and fair usage policy
 - Simplified connectivity

- Content Filtering and Security
- Application filtering
