

## SkyEdge II™ VSAT SCADA Platform

**SkyEdge II Extend™ IP** - IP router enables interactive broadband IP, legacy and multicasting applications to individual or multiple remote locations.

### Benefits

- High performance service rates up to 20/2.6 Mbps
- High availability and efficiency utilizing DVB-S2 ACM and ICM adaptive inbound
- Feature-rich functionality optimizing performance of multiple layers with TCP and HTTP acceleration, QoS, VoIP and compression
- Added flexibility with two LAN ports

**DataSat II™ Armadillo Benefits** - All outdoors weather-proofed unit for the most rugged out conditions. SCADA and other applications have a VSAT with integrated heater, fans, ruggedized components and a weatherproof enclosures.

### Benefits

- A sealed, all weather enclosure operational under a wide-range of external conditions
- Temperature operating range of -40° to +60° C (-40° to +140° F)
- High reliability with industrial grade components
- Internal thermostatically controlled heater for cold temperatures
- Increased lightning protection
- All external connections are weatherproof

**SkyEdge II Access™ PRO Benefits** - Multi Service VSAT bundles interactive data, broadband IP legacy, public and corporate telephony on a single platform that includes 3 expansion slots for optical plug-in cards including quad LAN, voice & mesh.

### Benefits

- High performance service rate up to 30/4 Mbps
- High availability and efficiency - utilizing DVB-S2 ACM and ICM adaptive inbound
- Feature-rich functionality optimizing performance of multiple layers with TCP and HTTP acceleration, QoS, VoIP and compression
- Field upgradeable with two expansion slots
- Support for Mesh and NetEdge multi-star technology
